ON TIME!

Now that the school calls at 9 o'clock every morning, in many a home in town and country there is a grand and glorious scramble and rush to get the children off on time.

Some boys and girls never do acquire that most valuable of habits. Punctuality, and they go thru life trying to catch up, and never getting there. Looking at lateness from the point of view of the teacher and classroom, it is one of the unpleasant and unpardonable annoyances which take the joy out of the day.

Looking at it from a health standpoint, the child with his breakfast bolted and his appetite unsatisfied makes a poor pupil. He starts the day handicapped.

The remedy is a simple one and holds the secret of a life's success. Examine a set of rules of the health game of the Junior Red Cross and it will be seen that one refers to Sleeping. Going to bed on time is the key to the situation of being on time at school.

This is too valuable a habit to be ignored. Let every mother have a set of Health Rules in the home. Write for your free copy to Junior Red Cross, Civic Block, Edmonton.

Stony Plain and District

Mr and Mrs Conrad Goebel have moved from their farm to town, and are occupying the John B Miller residence.

Miss Olga Bergstrom, who had spent her vacation here with Mrs L M Larson, left on Friday to resume her teaching duties in Winnipeg.

Rev W A Baepfer, Edmonton, preached at the Lutheran service held in Stony Plain Sunday morning last.

Stony Plain Town Council meets tonight.

The Yerko and Mike Capp assault case, which opened at the local Court on the 24th and adjourned, will come up again Tuesday the 8th.

The threatening weather of Sunday afternoon prevented the Morinville baseball team from coming to Stony, to play the promised double header with the local Seniors. The game will be pulled off next Sunday on the local diamond, weather permitting.

In an endeavor to cope with the competition of busses on the highways, a new express tariff has gone into effect on Canada's two principal railways, the rates between Edmonton and Edson being one of the units affected.

Golf Gossip.

The tournament of the local Golf Club which had to be postponed last week on account of adverse weather conditions, will be held Monday next, Labor Day. Play commences at 11 a.m.

In the tournament 2 rounds (12 holes) will be played. Prizes will be awarded to the lady and gent getting lowest records for the day.

A cup will also be put up for competition; and in this competition 18 holes will be played.

Tea will be served by the ladies on the grounds after the play-offs. Following are the draws—

President v. Vice-Pres.

— Ladies —

Miss E Wolfe v Miss B Wudel

Mrs D Moyer v Mrs C Lory

Mrs J McCulla v Mrs R A Walton

Mrs F W Yeats v Mrs W Connolly

Mrs G Donaldson v Mrs J F Clarke

Miss M Clarke v Mrs A E Michael

Mrs H Oppert v Mrs W Lewis

Mrs L Kowensky v Mrs G Oppert

Miss Marie Clarke v Mrs Sherman

Miss McDonald v Miss C E Miller

— Gentlemen —

F W Yeats v W J Connolly

Vacation Musings

The writer of this column is on a brief vacation, and he intends enjoy it to the full. During the blistering hot days of the summer with its strong hot winds and choking dust storms he stayed "on the job." Now he has hied himself to the lakes and the woods to rest and to play. Se he proposes to fill his column this week through the medium of a pair of scissors and a paste pot. This is not an altogether unknown procedure on the part of some editors, but open confession is not always made as frankly as in the present instance.

In starting on his vacation, the writer desired to get away not only from the hot city pavements, but even more so from the constant talk of depression, hard times, unemployment, which forms the basis of conversation on every hand. He felt it would be a great relief to get back to Mother Nature, and listen to the rippling of the water, the murmuring of the leaves, the song of the birds, and the droning of the bees and insects.

And for his reading he brought along, not a daily newspaper, nor a fiction magazine, nor text books and bulletins on economics, finance or seamanship, but some little pocket editions of essays by and wise sayings of other men. And it was with scissors and paste pot in this idle hour that he proposes to pass a few of these gems on to the readers of this column in the hope that, for a little time at least, their thoughts may be diverted from those things which lead to present discouragement. So, here goes:

"Like most garments and most carpets, everything in life has a right side and a wrong side. You can take any joy, and by turning it around find troubles on the other side; or you may take the greatest trouble, and by turning it around find joy on the other side. The gloomiest mountain never casts a shadow on both sides at once, nor does the greatest of life's calamities."

"When you make a mistake, don't look back at it long. Take the reason of the thing into your own mind, and then look forward. Mistakes are lessons of wisdom. . . . The past cannot be changed. The future is yet in your power."

"A great many people criticize and find fault; that's jawbone. Some wish things were better, but do nothing to help; that's wishbone. Others co-operate and do things, that's backbone."

"When you get into a tight place and everything goes against you till it seems as though you could not hold on a minute longer, never give up then; for that is just the place and time that the tide will turn."

"Nothing is easier than fault finding; no talent, no self-denial, no brains, no character are required to set up in the grumbling business."

"The most trifling actions that affect a man's credit are to be regarded. The sound of your hammer at five in the morning, or nine at night, heard by a creditor, makes him easy six months longer; but if he sees you at a billiard table, or hears your voice at a tavern, when you should be at work, he sends for his money the next day."

"The tendency to persevere, to persist in spite of hindrances, discouragements, and impossibilities; it is this that in all things distinguishes the strong soul from the weak."

"Of every good quality, there is an excess which is undesirable. Excess of self-reliance leads to secretiveness and mulish obstinacy; of courtesy to impudence; of imagination to hesitation and inaction; of foresight to indecision; of patience to want submission; and so on. To give due weight, decision, of no more than its due weight, to each ingredient in the composition of our character, we are fortunate if we are blessed with those twin senses, a sense of proportion and a sense of humor. As a sweetener of life, preserving the rich and successful from odious self-satisfaction and helping all to banish the demons of discontent and ill-will there is nothing to compare with a sense of humor."

"Speaking of unemployment, says 'Life Magazine' the average man has 12,000,000,000 brain cells. Get busy. Put them to work."

When skies are kind of gloomy,
And the outlook awful dim,
Just keep on keeping on.

Market For Wheat In Ireland

Senator Esmond Of Irish Free State Points To Opportunity

Canada should be able to enter into a mutually satisfactory trade agreement with the Irish Free State, in the opinion of Senator Sir Thomas Grattan Esmond, member of the Upper House of the Irish Dail, passing through Montreal after fishing expedition with Lady Esmond among the salmon streams of Quebec.

"Canada should be able to sell us much of our wheat," he said. "The Free State buys three-quarters of its wheat requirements abroad, and there should be no reason why Canada could not make a treaty with us on the same lines as that under discussion with New Zealand and that concluded with Australia. I certainly shall look into the subject when I get back to Dublin."

Alberta Natural Resources

Regulations Providing For Administration Now Being Published

Complete regulations under the acts providing for the administration of the natural resources of Alberta is being published in a special issue of the Alberta Gazette, running to 300-odd pages. It will be followed by the publication of a series of pamphlets giving the various regulations separately. The new homesteading and fishery regulations, which have already been announced in summary form, constitute an important section of the volume, and among the other items will be those affecting the forestry reserves, timber, placer mining, petroleum and gas, coal and quartz mining, fur farming, and the various regulations applying to grazing leases and permits.

Dysentery Is a Very Dangerous Bowel Complaint

Mrs. E. M. Ward, 687 Ave. H. South, Saskatoon, Sask., writes: "When my husband was in France he took dysentery, and was in hospital over a year. Ever since he came back he has had the attacks three or four times a year. I cannot emphasize the good Dr. Fowler's Extract of Wild Strawberry has done for him. He generally takes a few doses and gets relief in a few hours."

"I cannot speak too highly of your excellent remedy, and you may be sure we are never without a bottle of it in the house."

Trade In Trees Curbed

Restrictions Necessary To Prevent Spread Of Insect Plagues

Restrictions have been placed by the Department of Agriculture on the movement of poplars and willows from the Maritime Provinces and certain areas in British Columbia because of the satin moth. Gaining a foothold in Nova Scotia and New Brunswick in 1930 after it had made inroads in British Columbia, some years ago, the satin moth is a native of Europe and Asia. The restrictive regulations were passed to prevent its further distribution.

Importation into Canada of several varieties of pine wood has been banned by the Department of Agriculture because of insect plagues. On account of the white pine blister rust, every variety of the five-leaved species from all countries has been denied entrance to Canada. Importations of Austrian, Scotch and Swiss mountain pines has been prohibited because of the European pine shoot moth. Recent shipments of pine from these countries have been found to be infested with the moth.

Recipes For This Week

(By Betty Barclay)

PICKLED PEARS

- 4 quarts pears.
- 2 pounds white sugar.
- 2 cups vinegar.
- 1/4 ounce stick cinnamon.
- 1/4 ounce whole cloves.

Peel pears. Boil the sugar, the vinegar, the cloves, and the cinnamon for 20 minutes. Place a few of the whole pears at a time in the syrup, and cook them until they are tender. Pack them into thoroughly cleaned jars. Adjust the rubbers and fill each jar to overflowing with the hot syrup. Adjust the covers and seal the jars immediately.

CUCUMBER CATCHUP

- 1 quart ripe cucumbers, large.
- 1 cup white onions.
- 2 green peppers, medium-sized.
- 2 pint vinegar.
- 1 cup sugar.
- 2 tablespoons white mustard seed.
- Salt and cayenne pepper.

Parse the cucumbers. Cut in quarters and remove the pulp. Put the cucumbers, onions, and peppers through a food chopper. Add a small amount of water to prevent sticking, and boil the mixture until the cucumbers are tender. Heat the vinegar, sugar, and seasonings together. Add the vegetable mixture and cook it until it is clear. Seal in clean hot bottles or jars.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first show there is improvement in the condition of the sufferer and a cessation of manifestation of internal trouble.

Text Book Changes

Minor Alterations Have Been Made In Saskatchewan

Changes of only a slight nature have been made in the authorized text book list for both public and high schools in Saskatchewan, Premier J. T. M. Anderson has announced. Principal changes noted are the literature selections authorized for grade 11 and grade 12. The chief text book in literature has been retained however.

"Dragged Down By Asthma. The man or woman who is continually subject to asthma is unfit for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to so many of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it."

Survey Of Pasture Lands

A complete survey of all pasture lands in Canada is to be conducted by Prof. L. E. Kirk, of the University of Saskatchewan, announcement of whose appointment as Dominion Agrostologist was made in the House of Commons the other day by Hon. Robert Weir, Minister of Agriculture.

The average woman has no more honour than a man, and when it comes to clothes she has less on'er."

W. N. U. 1905

Child's Health Should

Be Carefully Checked

So That Conditions Which Are Handicapping Can Be Corrected

In many places they have what is called a summer round-up of the children who are to start school for the first time in autumn.

The idea of the round-up is to have the children medically examined. Those who, at that time, are found to be in need of medical care are sent to their doctor and their dentist for treatment in order that when they start school in the autumn they will be physically fit.

Parents should not wait until the child is ready to go to school to have this done, says the health service of the Canadian Medical Association. However, if they have neglected this point, it is best to attend to it now.

One of the commonest and most serious mistakes that parents make is to allow an abnormal condition to persist with the idea that the child will grow out of it, or that he is too young to have treatment.

The child who cannot see without glasses is obviously handicapped until he has been fitted with proper glasses. The child who has a running ear is almost surely on his way to deafness, which is a serious handicap, unless his ear is properly treated. Children do not grow out of such conditions.

Not only are diseased tonsils and teeth a handicap to the child, but they are dangerous in that they poison the body, and are, it is believed, very often the cause of heart and kidney disease in later life.

No child should be handicapped by conditions which can be corrected by proper treatment. There should be no delay in securing treatment simply because of the mistaken idea that the defects are not serious, or that the child is too young for the treatment or that he will grow out of the defects.

Persian Balm - alluring provocative and charming. Fragrant and restful as a cool breeze in summer. Delightful to use. Creates complexion of surpassing loveliness. Makes the skin velvety soft in texture. Soothes and dispels all irritations caused by weather conditions. Softens and whitens the hands. Persian Balm is a needless toilet requisite for women who care for charm and distinction. Use it for aroinds and face.

Wins Race Around World

Travelling around the world from east to west, K. Fukuma, Japanese newspaperman, succeeded in defeating a colleague who travelled west to east in a race to be first around the world using only regularly established means of travel, he states in a letter received at Vancouver by J. J. Forster, steamship general passenger agent of the Canadian Pacific Railway.

British Columbia Industries

Province Now Ranks Third In Manufacturing In Canada

In 1927, the year of Confederation, British Columbia was credited with 40 factories. Thirteen of these were saw mills and 11 flour mills, leaving 16 others, all of which were at Victoria. In 1901, British Columbia was fourth among the provinces in manufacturing and now ranks third, with about 725 establishments. "These statistics are therefore particularly interesting," says R. H. Arnott, industrial secretary of the Vancouver Board of Trade, "pointing as they do to the wonderful industrial future lying before Greater Vancouver area where 60 per cent. of the entire manufacturing enterprises of the province are located."

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

Speedy Mail Delivery

A record for speedy mail distribution was made by the Canadian Pacific liner "Empress of Britain" the other day when letters posted in London at 6:15 p.m., July 28th, were landed in Montreal and distributed before 10:30 a.m. on August 3rd, the time made (with Canadian Airways) planes picking up the sacks at Father Point, being thus 5 days, 16 hours and 15 minutes.

Constant Vigilance Of British Authorities Is Necessary To Suppress Slave Trade In Africa

Those comfortable people who are wont to accept as gospel the glittering generalities of opportunist orators and who, therefore, believe that all is well with the world apart from depression and failure to agree upon disarmament and war debts, may get something of a jolt if they peruse the reports of the recent annual meeting of the Anti-Slavery Society. They have been accustomed to believe that slavery was abolished in all countries with the exception of Liberia. But no less an authority than Mr. J. A. Spender tells us that the menace of slavery is ever-present and that nothing but the constant vigilance and the restraining influence of British rule in the Sudan prevent its revival.

Only a year and a half ago there was a roundup throughout the Sudan by the British, which resulted in the rescue of a number of slaves, the capture of some notorious slave-traders and a further grip by the authorities upon the narrowing channels through which these had been operating. But, as Mr. Spender points out, such round-ups are very expensive, and the Sudan treasury is in no state to stand any strain just now. That in a country as large as Europe slavery should have been virtually wiped out in thirty years is a magnificent tribute to the humanizing and civilizing influences of British rule; but there still remains all over the country a sort of subconscious acceptance of slavery that may not be wholly eliminated for generations. Primitive people are always drifting across the Sudan, and they all have this conception of slavery in their traditions and in their blood.

Even today comparatively few of the Sudanese or the Arabs regard slavery as a crime or an offence, but rather as something the British will not condone and which must, therefore, be concealed or abandoned in toto. Virtually up to the end of 1930 the Sudan had been raided and devastated year after year for long generations by slave-dealers. The British changed that, but if their hands were to be lifted from the Sudan tomorrow, slavery would be in full swing again by the end of the year. It is this knowledge that prompts the British authorities in the Sudan to adhere so strongly to their present policy and to deny interference by stay-at-home politicians whose knowledge of the facts is gleaned from fanatics or from a Cook's tour.

Ontario Grapes

Growers Market Council To Launch Selling Campaign

Designed to promote sales of Ontario's grape crop, unusually large this year, a comprehensive selling and advertising campaign will be launched, according to Charles W. Bauer, secretary of the Ontario growers market council. "Every basket of grapes shipped outside the province will be subject to government inspection to ensure grade and quality," said Mr. Bauer. Ontario grapes would be available all over Canada, he said.

Cop—Hey, there! don't jam up traffic. Why don't you use your noodle?
Sweet Young Thing—I didn't know the car had one.

"And how are your two sons getting on?"
"Fine."
"In spite of the trade depression?"
"Yes, one's an official receiver and the other's a bailiff."—Brunner, Berlin.

Automobile Industry

Motor Car In Canada For Each Eight Of Population

The Canadian automobile industry in 1930 was capitalized at more than \$90,000,000, and 158,372 passenger and commercial vehicles were manufactured. Cars scrapped or withdrawn from use during the year numbered 95,241. There are 1,229,888 motor vehicles registered in the Dominion, of which 1,074,494 are passenger vehicles. In 1929 the registration was 1,108,868, and in 1927 it was 1,076,819 for all classes of vehicles. On the average each eight Canadians own a motor car, a ratio exceeded only by the United States and the Hawaiian Islands.

A woman never knows what a man thinks of her, although she thinks she does.

Water makes up 50 to 90 per cent. of growing plants.

Ten Year Plan For China

Would Convert China Into One Of The Great Industrial Powers Of The World

A "ten-year" plan for China, intended to accomplish much of what the Five-Year Plan is accomplishing for Russia, has been worked out by the ministry of industry.

The plan is intended to convert China into one of the great industrial powers of the world. The program has been submitted to the government. It embraces 14 points.

The scheme is of unprecedented magnitude and importance. If successfully carried out, the economic position of China will undergo a tremendous change.

The plan is presented by the Ministry of Industries is worked out in great detail.

That the scheme is ambitious is admitted; that it will encounter many difficulties is fully realized, but that the government can carry this plan through, is confidently believed if it can win and hold the people's confidence.

Making More Butter

Butter Exports Continue To Show A Decided Increase

As the current year progresses the market report of the Dominion Dairy and Cold Storage Branch makes it increasingly apparent that butter fat is being sent to market in the form of butter to a greater extent this year than for some time past. Receipts at Montreal for butter up to August 1st this year, were 399,327 packages as compared with 242,963 packages the preceding year. Cheese receipts totalled 386,373 boxes for the same period as compared with 452,934 boxes for the preceding year. Butter exports continue to show a decided increase, the total to August 1, 1931, being 76,658 as compared with 2,504 last year for the same period.

Want Lighter Bales

Popular Demand Is For Baled Hay That Is Easily Handled

The Seed Branch of the Dominion Department of Agriculture have received complaints from hay dealers that the present practice by Canadian farmers of putting up hay in bales to weights of 150 pounds or more is killing the market for Canadian baled hay. Popular demand today is for a light bale that can be easily handled by the buyer, who in most cases is a dealer or truckman, who has to carry the bale on his shoulder to his feed lot. Bales weighing from 110 to 120 pounds will find a much more ready market than heavier bales.

France's active and reserve military forces comprise 15.4 per cent. of the population.

In New York State one woman in every four now works for wages.

Greece Is Now Canada's Second Best Wheat Customer, With Importations Steadily Increasing

Reindeer Farm At Churchill

Herd Of 1,000 Reindeer To Be Shipped North Next Spring

Negotiations are under way between a northern syndicate and an Alaskan reindeer company for a herd of 1,000 reindeers to be delivered at Churchill next spring. The reindeers will be brought by boat to Vancouver and will be shipped across the continent to their new home about two miles north of the new bay port of Churchill. The chief business of the syndicate is expected to come from Europe. Reindeers can be shipped alive by the coast bay route to Churchill much cheaper than cattle, and their meat is at a premium on the continent.

Cheap food is provided on the barren lands, the only cost will be three or four Eskimo herders. The rate of increase of these animals makes them among the most profitable stock to raise. The reindeers native to the area around Churchill are inferior to the shipment that will be imported both in hides and skins. An attempt is being made to get federal aid for the project.

For Tourist Traffic

Link Up Highway To Connect Western National Parks

An effort to secure tourist traffic on trips around national parks in western Canada, via Riding Mountain Park in Manitoba to Prince Albert National Park in Saskatchewan; then to Jasper National Park in Alberta, down to Banff, Waterton Lakes, Yellowstone and Glacier, will be made by the Federal Government. According to Hon. Thos. Murphy, all that was necessary before launching such an appeal was to complete a few links in all-weather highways.

No Change In Centuries

An American millionaire now in London, England, who spends thousands of pounds a year on old MSS. and first editions, has a wonderful MS., written in Spanish in 1645 by a notorious old woman-hater.

It might have been written in 1931. The translation reads: "Modern women—what are they? Just a walking mass of cosmetics, with their plucked eyebrows, crimson lips and stained nails. Modern women think they are so charming. I think they are hateful, and so artificial."

Sergeant, posting sentry and after giving him instruction—"Now, don't forget, if anything moves you shoot." Sentry—"Yes, and if anything shoots I move."

Honor Indian Hero

Meekioosh, Ojibway Brave and Indian guide attached to the French River Bungalow Camp, is as modest as he is courageous. It is three years since, with heavy odds against him, he rescued Miss Elfrida Osaman and Dr. J. Schwartz, of Chicago, from the eddies of the Blue Rapids on the French River into which they had been flung from an overturned canoe. He told not a word of his exploit which came at last to the notice of the Royal Canadian Mounted Police. Enquiries were set on foot, the facts came to light and the upshot was the presentation to Meekioosh this month at the French River Camp of the bronze medal for bravery of the Royal Humane Society. The presentation was made by the Indian Agent at a gathering of 120 guests of the camp headed by Manager Jack Strathdee, at which the Chiefs of the tribe in full regalia of feather headdress and richly embroidered coats participated. Meekioosh (left, horseshoe), is shown in the photograph with the medal which is being examined by an Ojibway Chief.

Greece today is Canada's second best wheat customer with importations to that country continually on the increase, according to Henri Turcot, Canadian Government Trade Commissioner to Greece and Turkey. Canada's best wheat customer is Great Britain.

In 1928 Mr. Turcot was an instructor of languages at the provincial normal school in Saskatoon, and was assistant trade commissioner in Paris and Milan before going to Athens. He is at present touring the Dominion to gain first hand information on business conditions and will return to Greece in November.

In an interview Mr. Turcot gave an outline of the conditions that exist in Greece and the opportunity for trade with Canada which is present. The trade commission office in Athens has been opened only for two years.

"The general crisis has unquestionably reacted unfavorably on Greek economy and brought about a depression in commercial and other pursuits," said Mr. Turcot. "But the depression can also be traced to a shortage of crops and to low prices obtainable for the staples of Greek export trade. However, it cannot be said that an actual crisis took place in Greece during 1930, nor that one is taking place this year."

"Taking into account the fall in prices, it is evident that the figures relating to the volume of Canadian exports to Greece showed a decided progress."

"This progress is attributable to our wheat having been shipped to the Greek market in a quantity never attained previously. Shipments of Canadian wheat to Greece represented, in 1930, a volume of 9,000,000 bushels, or over one-half of Greece's requirements of foreign wheat, against 7,000,000 bushels in 1929. Larger sales are reported this year."

"The other Canadian products sold in the Greek market comprised iron and machinery, tinned lobster, tinned sardines, dried and smoked fish, flour, tomato sauce, whisky, agricultural implements and machinery, storage batteries, wood-pulp for artificial silk, wallpaper and jute bags."

"To complete the picture of Canadian trade with Greece, I shall add that in 1930, our imports amounted to \$16,000 against \$25,000 in 1929, the balance of trade being therefore, highly favourable in Canada."

To Hurry Relief Measures

Credit Of Province Of Saskatchewan Behind Relief Program

To enable the various projects to be started as soon as possible, the credit of the province of Saskatchewan will be placed behind the whole relief programme. Hon. Howard McConnel stated recently.

This will prevent any undue delay in the commencement of the relief projects and provision will be made later for having whatever amounts are expended recouped by the Federal Government, he said.

The residents of the province in need of aid enabled to benefit immediately, pending further negotiations with Ottawa concerning the distribution of relief costs.

A case of a man who gave some of his blood to save his child, and at the same time unknowingly transmitted malaria to the child, has been reported.

"Mary, I could write my name in the dust on the table."
Mary: "What a benefit education is, Ma'am."—Moustique, Charlier.

SINGLE PURPOSE IS TO RESTORE BRITISH CREDIT

London, England.—The new national government has already got down to its job of laying a firm foundation for British credit. Its opening meeting revealed complete unanimity in its task. It appointed the necessary small committees and proposes to go ahead as speedily as possible with the preparation necessary for new legislation.

The method of legislation, it is authoritatively intimated, will be such as to make it effective for immediate operation. It is stated, although not officially confirmed, that in effecting economies, the national government will seek parliamentary authority to proceed by order-in-council.

The government's scheme for balancing the budget and the restoration of British credit will have the double feature of reductions in expenditure and increases in taxation. The plan is to make the entire scheme a complete unity, and a characteristic of that unity will be the equal sacrifice according to position of various classes of taxpayers. In government circles statements that the burden of the new scheme will fall chiefly on those least able to bear it are described as absolutely untrue.

All controversial legislation now before parliament will be suspended. The new government proposes to concentrate on the supreme task of restoring credit, and in that task, it is stated in government circles, there can be no faltering.

Both Conservative and Liberal members of the new administration believe they will have behind them the virtually unanimous support of their parties. Rt. Hon. David Lloyd George and Lord Grey alike, it is understood, have signified their entire agreement with the Liberals in their acceptance of office.

Yet while an overwhelming majority of Conservatives and Liberals are backing the new government, Laborites are forming up behind the "rebels." After several hours' deliberation the general council of the Trades Union Congress, the national executive of the Labor Party and the consulting committee of the Parliamentary Labor Party unanimously decided that the new government should be vigorously opposed in parliament and by the Labor movement throughout the country. They expressed their approval of the action taken by certain ministers of the late government in declining to tender their support to the new administration, and recommended that the Parliamentary Labor Party constitute itself the official parliamentary opposition.

Raise In Gasoline Prices

United Protest From Western Provinces Is Urged

Calgary, Alberta.—Protestors to bring a united protest from all western provinces against increase in gasoline prices were instituted here by directors of the Alberta Motor Association.

The recent advance of one and one-half cents a gallon in the gasoline price was scored by the Alberta directors as unwarranted. Copies of the resolution embodying the criticism are being sent to all motor associations in Manitoba, Saskatchewan and British Columbia, urging similar action to be taken.

Printing Plants Wrecked

Montreal, Que.—Hopelessly ruined by sabotage of the printing presses and the firing of the plant, the weekly newspapers, *Le Morior*, *Le Cheneau* and *Le Goglu* will disappear from Montreal journalism, Joseph Menard, joint owner with Adrien Arcand, told the fire commissioner's court here at a hearing to probe circumstances surrounding the wrecking of the printing plant.

Had Stormy Trip

Southampton, England.—Owing to a violent storm in the English Channel, the Canadian Pacific liner "Empress of Britain," was unable to call at Cherbourg. When the liner docked at Southampton, Captain Latta said he had fought bad weather all the way across the Atlantic.

W. N. O. 1905

Destructive Wind Storm

Man Killed and Others Injured When Tornado Strikes Southern Saskatchewan

Estevan, Sask.—One man was killed, two others injured and heavy damage done when a tornado swept through Estevan and surrounding districts. While assembling workmen to pin down a tent during the height of the storm at a construction camp about two miles west of here, Robert Mitchell Henderson, 50, Calgary, partner in the bridge contracting firm of Mannix and Henderson, was killed instantly when struck by a flying timber. The missile hit him in the head, fracturing his skull. It has been decided that an inquest is unnecessary.

Louis Goneroy, of Estevan and Dalton McKay, of Saskatoon, laborers with the construction gang, suffered bruises and shock when struck by flying timbers and were brought to Estevan hospital for treatment.

The terrific gale sent box cars crashing into the round house at the Traux-Tracer Coal Company Plant, while the roof of the grandstand at the exhibition grounds was tipped over and several barns were blown down. The trestle bridge on the Neptune branch of the C.P.R., five miles from town, was splintered by the wind. A garage was blown down in Estevan. And the roof of the D. L. Irvine residence was torn off.

Historic Sites

Cairn Erected To Mark Landing Of General Wolfe

Sydney, N.S.—To the honored dead of two nations. This brief tribute, dropped by a squadron of Royal Canadian Air Force Planes, soaring high overhead, epitomized the spirit and thoughts of over 1,200 people gathered on the rocky bluff overlooking Kennington Cove to witness the unveiling by Hon. Frank Stanfield, Lieutenant-Governor of Nova Scotia, of the beautiful memorial cairn erected by the Historic Sites and Monuments Board of Canada, to mark permanently the site of Wolfe's landing on June 8, 1758, six weeks prior to the fall of Louisbourg. Lieutenant-Governor Stanfield pulled the cord unveiling the cairn which permanently marks the site of Wolfe's hazardous undertaking.

Market For Butter

Canadian Dairy Produce Is In Demand In Great Britain

Montreal, Que.—Dairy produce from Canada is very much in demand among British buyers and consumers, and the British market can absorb all Canadian dairy farmers can send, Dr. J. A. Ruddick, Canada's veteran dairy commissioner, stated here on his arrival from England.

"The prospects for butter especially are very good," said Dr. Ruddick, "Canadian cheese is also very popular and tops the market in its class."

Wheat Bonus

Winnipeg, Man.—Farmers are assured of the five-cent bonus on wheat pending arrangements now being made by the Board of Grain Commissioners, E. B. Ramsey, chairman of the board, stated here recently. Mr. Ramsey's attention had been drawn to a suggestion that farmers who have threshed wheat are withholding it from the market because the machinery for the distribution of the bonus had not yet been perfected.

May Withdraw Grants

Toronto, Ont.—Fall Fair Associations in Ontario may have to discontinue the practice of looking to the Provincial Government for financial assistance. This year the usual grants, estimated between \$80,000 and \$100,000, will be maintained.

Ban Use Of Benzol

Toronto, Ont.—Use of benzol in Ontario factories has been prohibited in an order issued by Hon. Dr. J. D. Monteith, Provincial Minister of Public Works and Labour. This use of benzol has been proven to the department to be injurious to the health of individuals. That fact has been demonstrated on the evidence of chemists who have investigated, and the labour department has prohibited the use of benzol," said Dr. Monteith.

KEEPER OF PURSE

J. A. McIsaac, Dominion Honorary Treasurer of the Canadian Legion of the British Empire Service League, who is busy preparing for the gigantic conference to be held in Toronto this week.

Trans-Canada Highway

Locations Of Final Sections Of Road In Ontario Announced

Toronto, Ont.—Designation of first sections of the trans-Canada Highway in Ontario was announced by Premier Geo. S. Henry following approval by the cabinet. This is the first step in commencing work for unemployed by the government at work camps in the north in conjunction with Federal Government grants.

Two sections are designated in the plan. The first section extends from Pembroke on the east, to Mattawa and hence westerly to Nottawasaga. The second section commences at the town of Schreiber, Thunder Bay district, and goes west to the Manitoba boundary, following the north shore of Lake Superior to the village of Nipigon, thence to Port Arthur and Port William, proceeding through Upsala, Dryden and Kenora.

Preparing To Send Goods To Australia

Good-Will Ship To Leave Montreal Late In October

Toronto, Ont.—Preparations for the despatch to Australia of a good-will ship, laden with Canadian goods for export to the Commonwealth are under way, according to a statement issued by J. E. Walsh, general manager of the Canadian Manufacturers' Association.

The vessel, "The Canadian Constructor," of the Canadian National Steamship Lines, will leave Montreal October 25, bound for Australian ports. A similar trip by the same ship from Australia to Canada will precede the trip for which arrangements are now under way.

Will Attend Conference

Mahatma Gandhi Leaves For London

Simla, India.—After months of indecision and "heart-searching," Mahatma Gandhi has announced his "inner voice" has told him it would be to India's interest for him to go to London to attend the second round table conference.

At the end of almost three hours' conversation with Viceroy Earl Willingdon, who left a sick bed to see him, the Mahatma agreed to co-operate with the round table conference.

His decision was based on an attitude of "mutual accommodation and compromise." The Nationalist leader agreed to drop his demand for the appointment of an arbitration board to determine whether there have been breaches of the Delhi armistice and the viceroy consented to institute an inquiry into the alleged excesses of tax collectors in the Eardol district.

Thus, after nearly 20 years' absence from England, Gandhi will set sail for London with Pandit Madan Mohan Malaviya and Mme. Sarojinibai, also delegates, and will reach his destination September 9. He will take aboard his goats to provide him with milk.

Defends Position

Hon. J. H. Thomas Says Nation's Interest Is Above Party

London, England.—In a letter to the executive committee of the Labor Party of Derby, the borough which he represents in parliament, Rt. Hon. J. H. Thomas defended himself for following Prime Minister MacDonald and joining the national government. "I know my action will be misunderstood by many," he said in the letter. "I knew full well I should be subjected to criticism and abuse, but I also knew the nation's interest, which is greater than that of any individual or party, was at stake."

Mr. Thomas explained he had abandoned no policy and sacrificed none of his principles. "My only policy," he said, "has been to face boldly the grave emergency in the nation's affairs, and I have decided to remain in the new government only as long as the crisis lasts, and until stability is assured."

He added that in the elections which were inevitable, he would "accept the verdict as a consequence of my own action."

Joins Up With Gandhi

Ahmadabad, India.—Forewearing the pleasure of the moment, Miss Nilla Cram Cook, 21-year-old daughter of the late George Cram Cook, United States poet and playwright, has joined Mahatma's Gandhi's movement for the liberation of India. She is the first of the United States National to be admitted to his model colony, conducted on the banks of the Sacred Sharmati River.

CLUE TO NUNGESSOR'S FATE

John Gaucher (left) and L. V. Allers are shown reading the note they found in a cognac bottle off Fire Island. The note, reproduced below, is believed to be from C. M. Nungesser and Major Francois Coll, the interred French fliers, who took off from Paris on May 8, 1927, on a non-stop flight to New York. They were never heard of again. Translated from the French the note reads: "Sinking at this moment in Labrador." It bears a signature believed to be that of Coll.

RELIEF PLANS WILL EMBRACE PUBLIC WORKS

Ottawa, Ont.—Canada's Government is carefully considering a scheme to bring water from the Saskatchewan River to Moose Jaw and Regina, in southern Saskatchewan, according to the statement by Hon. G. D. Robertson, Minister of Labour.

Acting on a message from Hon. Robert Weir, Minister of Agriculture, now in the west, Senator Robertson has recommended to the Department of Public Works that a government engineer be sent to Saskatchewan to examine the possibilities of the proposal. Such a project, the Minister of Labour said, would no doubt operate to create wide employment facilities in that area.

A tentative agreement has been reached with the province of New Brunswick on the matter of unemployment relief, Senator Robertson said.

Details of the arrangement would, however, not be made public until Premier R. B. Bennett returns from western Canada and the recommendations are approved by the governor-in-council.

Conferences were proceeding between the minister and representatives of Manitoba.

It is expected that after discussing individual requests of the provinces the entire programme will be submitted to the governor-in-council within a few days.

Good Crops At The Pas

Acres Is Limited But Yield Reported Remarkably High

The Pas, Man.—Fully two weeks behind some sections of the southern part of the west, cutting operations started last week on wheat and oat fields here. While there is only a limited acreage in this part of the country the yield has been remarkably high according to farmers in this district.

Crops here have run as high as 50 bushels, while wheat has averaged 30 and 35 bushels. This is the fifth consecutive year that grain yields have been good in this area, and considerable interest is being taken in the possibility of throwing open the Carrot River Valley to settlers. This triangle of rich river silt has produced sensational yields for years, but as yet, only squatters are working the land, as it is not open to homesteaders. The local Board of Trade has received enquiries from farmers in the southern part of Saskatchewan regarding the possibility of establishing mixed farming in that area.

Cattle Prices May Be Lower

Ottawa, Ont.—Reporting on conditions now prevailing in cattle markets in the Old Country, the Canadian agricultural products representatives in Great Britain have cabled to the livestock commissioner here: "Cattle markets weaker. Our best hope is strict selection for type and quality of all weights. Lower prices likely."

May Open Canadian Branches

Montreal, Que.—Six large industrial firms of the British Isles are seriously considering the establishment of branch factories in the Dominion during the coming year. F. W. Field, His Majesty's Trade Commissioner, told members of a service club, during an address on the industrial situation in Great Britain.

Will Deport Canadians

Windsor, Ont.—A number of Canadian citizens from widely separated parts of the Dominion have run afoul of the immigration authorities at Detroit and are held in Wayne County Jail awaiting deportation. Among the group are Henry S. Mabey, of Calgary, Alberta, and Gustave A. Auburn, Saskatchewan.

Celebrates Birthday

Ottawa, Ont.—Hon. G. D. Robertson, Minister of Labour, was 57 years old August 26. From the staff of the department Senator Robertson received a magnificent bouquet of roses, while numerous messages of congratulation came from friends and colleagues. The minister was born in Welland, Ont. on August 26, 1874.

Stony Plain and District

Monday next, Sept. 7, is a public holiday (Labor Day). All places of business in Stony Plain will be closed.

Mr and Mrs J. Mayer and family spent the week-end on a motor trip to Banff.

The Royal Cafe has now in stock a full line of school supplies.

A Delco lighting plant has been installed at the Henkel service station on the Baseline by the Stony Plain Hardware.

The rain storms, which are of almost daily occurrence, are interfering somewhat with harvesting operations in this district.

Golden Spike

Rev P. Hanneman, a former pastor at St. John Lutheran church, and who left here to take charge of a church in the Camrose district, has accepted a call to return here, and will hold services at St. John, as heretofore.

The pastoral of Zion Lutheran church (Missouri Synod) which has been vacant for some time, has been filled by the appointment of Rev H. Frye to the charge. He will conduct his first services on Sunday the 13th.

The crops here are turning out better than expected—some farmers are expecting their wheat to go over 50 bu. to the acre.

Some of the gold washers who have been operating at the river bank in this district, are annoyed on being informed they must obtain a permit.

Addition to School Staff.

Since printing the names of the staff at Stony Plain Consolidated School a change in the personnel has been made. At a special meeting of the Board Monday evening Mr F. L. Tilson, the principal last session, handed in his resignation. His place has been taken by Miss Phyllis Woods, M. A. Her assistant is Miss L. Eversman, B. Sc.

Rates for Threshing.

Altho the local threshermen have not yet held their meeting to decide on rates to be charged, there is a report in circulation that the charges this Fall will be 5c, 4c and 3c. There is a possibility that some threshers will not travel this season. Owing to the low rates in prospect, agents for separators and tractors are experiencing some difficulty in selling these, at present.

Townpeople Missed Having a Good Time.

The pastoral train of cars which pulled in to Stony early on Friday evening, containing the company of entertainers with Capt. Pop Shady at their head, and followed by the large consignment of vaudeville accoutrements and stage accessories, attracted the attention of those who happened to be down in the business section of the town at the time.

After a slight delay, the company and their equipment were safely housed in the hall hired for the occasion, and in a short while everything was in readiness for the throng which was to surge thru the gates at 4 bits a head.

Owing to the short notice given, the lack of the necessary advertising, and probably due to the fact that it took 2 bu. of No. 3 Northern to gain admission, the throng refused to surge to an appreciable extent. It not only refused to surge, but it refused to dribble, and consequently about Six bells the manager cancelled the concert, and, later, the proposed dance.

Thus, once again did the merry villagers fail to rise to the occasion, when a first-class travelling company presenting 'comedy, music and singing' offered these for their delectation.

WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes? The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free. Fifteen dollars examination fee. That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$12 to \$15; but you cannot see the logic of this; you need more than glasses.

Spruce Grove News

All local golf players have received invitations to attend at the annual golf tournament to be played on Monday next up at the Stony Plain golf course.

Mr and Mrs Connolly spent the week-end at Cooking Lake.

The local school re-opened on Monday last, with the same outfit of teachers. All the pupils in the higher grades were successful in passing the Departmental exams, in June.

Mr Michael Tarush, of the local C.N. Ry. staff, has made application for his naturalization papers.

Owing to Monday next being a public holiday, the regular monthly meeting of the Spruce Grove Councillors will be held the following day, the 8th, in Municipal Hall.

The Duke's Chanticleer hen has resumed her early morning vocalisations. Her recent indisposition is attributed to an attack of the pip.

A rumor is in circulation that the Grove hotel bar, which closed its doors on the 10th inst., will shortly re-open.

The pile of lumber which has lain on the Island plot of land since the wreck of the Dickie-dance hall, was auctioned off recently by Secretary Pinchbeck recently. Now that this piece of land is being cleared off, there is said to be a proposition put forward by a City syndicate to purchase this and erect a 14-room building for the accommodation of travellers.

Mr T. Campbell has resigned as truckman for the McLeod Lumber Co., his place being taken by Herm Ducholke.

There were no lighting facilities at the Grove Saturday evening, owing, it is said, to something going wrong with the transformer at the School road corner which supplies the village with light and power.

Mr Rimbev, of Atim Lake district, who bought the pile of lumber debris for the sum of \$40, is working at its removal.

Good Mileage in Test.

Armand Vezina took a practically new Chevrolet from the garage at Drummondville, Que., and after being chained to the wheel drove it for 80 hours without stopping. During that time he covered 861 miles at an average speed of from 10 to 12 m. p. h. The motor never stopped running, the car was kept in motion even while refueling. The average gas consumption was 19.15 m.p.g., which was considered excellent in view of the low speed and also in view of the fact that the car had previously travelled only 399 miles. After this rather gruelling test the car was in perfect order in every respect.

CHAPTER XXVII.—Continued

"Yes, I know you. You have come before, but—but you always go just when I think you're real—just as he has gone. He went down in a dreadful storm—my Nick! There are sharks in those waters, and other awful things. I've seen him fighting them—struggling—his hair all wet and matted. I—"

Fear was in her eyes now, fear for her best beloved. She trembled, and her voice rose higher. Desperate, Nick bent to her, speaking with slow distinctness.

"Listen, my precious little wife. I am Nick. I was not drowned. I did not fight those terrible things that haunt you. They are only a dream! But I am not that dream. I could a dream hold your hands like this, Gay—and kiss them—like this? Look into my eyes. Can't you believe me, my darling?"

She drew her hands away, putting them to her head as if confused again.

"I—lived before—and you went away."

Nick was breathing hard, as if at the end of a long race. Oh, if he could fight with his bare hands! he thought savagely. But to battle with something intangible—to conquer something unseen.

His jaw set grimly. He would conquer it! He would find a way to set Gay's tortured spirit free—to bring back the soul to her eyes. Perhaps if he began at the beginning—if he kept calm and steady, and took her back to their first days together—if he recalled to her poor, sick mind the vows he had spoken, wouldn't she understand? Wouldn't she know him?

He said, taking her hands in his: "Gay, you are breaking my heart. You think me a myth—an hallucination—a part of those dreadful nightmares, when all the time I am really Nick, come home after a long journey. But I shall make you believe me. Will you believe I am—if I tell you something that nobody in the whole world knows but just ourselves? I'll tell you where we were married, darling. It wasn't where everyone thinks."

Aching CORNS STOP HURTING INSTANT RELIEF!

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "Putnam's" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store. **PUTNAM'S**

W. N. U. 1905

It was, you know, in the office of that Justice of the Peace, with you looking every minute at Abraham Lincoln when you ought to have looked at me? The stars were shining when we were married, Gay, and somewhere not far away a hermit thrush was singing his evening song. We called it our bridal chorus—don't you remember? You were looking straight into my eyes, sweetheart, and I said: "God's a good enough witness for me, Gay; and I promise you now that I'll love you—and honour you—and be true to you."

Slowly, steadily, surely, the shadow was lifting from Gay's eyes. Watching, Nick scarcely breathed. As the distress and fear gave way, her face took on a new and magical beauty. It was like the slow, exquisite opening of a flower; she smiled, stretched out her arms; and cried, her voice echoing out gladly in that silent house: "Nick! dear Nick, is it really you? Oh, if you love me, stay with me—stay with me. Don't leave me."

She was in his arms. "Never again," Nick promised as he held her close. "Never, never again."

In the room below, Julie Nipps paused in the polishing of a candlestick, and with a wild sob threw herself on Janet Maxwell's breast; while, crouched on the stairs, where he had been listening tensely, for those welcome words, an old man raised eyes that were blurred with tears.

"Oh, God—our Heavenly Father," he said brokenly, "we thank thee."

He arose, gasping, as if he could not breathe, and stepping into the air, looked up in rapture at the limitless blue above.

CHAPTER XXIX.

Those followed days when Nick never left Gay's room save while she slept. If she awakened to find him gone, her eyes would widen pitifully with fear that his return was but a dream. After the first, glad outburst of joy, she was alarmingly weak; but as the days passed and her strained nerves relaxed, the serenity that was the keynote of her character came back again.

Nick never forgot those days when he lived in dread of a relapse. But it did not come. Slowly, to be sure, but with encouraging steadiness, she returned from that dread "no man's land" where she had wandered; yet, unless he were at her side, it was days before she could remember the fact that her husband was really sane.

"I know I'm foolish," she said apologetically, "but your being here is so wonderful that I want to keep you a prisoner every minute."

"Keep me," Nick answered. "It's a case where the prisoner hugs his chains."

After the first, anxious week, those were sometimes dull days. Sometimes the little boys would stand in quietude, and climbing onto their father's knees, listen to his stories of the strange and beautiful lands he had seen. Of the storm, and the time that followed, Nick never spoke, nor did Gay ask. Her dreams of the horror had been too vivid. Sometimes, perhaps, he would tell her, but not now. Nothing but joy must touch her for the present.

It was three weeks before Halliday came. In experiments to learn more about effects of X-rays upon evolution, an annual plant has been changed into a perennial at Cornell University, Ithaca, New York.

The plant which changed its nature at Cornell is the echinacea, the closest wild relative to corn. There are two species, Mexicana, the annual, and perennis, the perennial. Some of the seed was exposed to X-rays for a few minutes and then germinated. The young stalk began life as an annual, but later on, while still young, it developed some of the appearance of a perennial. Then the annual portion dried up and disappeared, and the remaining stalk developed into a true perennial.

"One should prepare for old age as one prepares for a long journey."

"My baby sister's got a name. Her name's Nancy, same as Uncle Slim's old woman." What you think of that? "That's fine," said Halliday. He took a seat on the edge of Bella Smith's old rocker, and smiled at the little boy in his miniature overalls. "What does Uncle Slim say?" he questioned. "Here comes Uncle Slim now. He said he was 'dabbering' it. I guess he meant 'spriced.' He acted that way. Was you 'spriced, Uncle Slim?" "Now what would I be surprised at?" asked Simeon, adjusting his

"Best for You and Baby too."

Baby's Own Soap

10 cents Individual Cans

umbrella so that it sheltered little Martha's head.

"I mean about my baby sister having the same name as your old woman. You acted 'spriced'."

"Well, and I was!" Simeon turned to Halliday, his face as beaming as a Jack-o'-lantern. "You could have knocked me down with a feather, and no mistake. Always thought if I had a girl of my own I'd call her Nancy, but the good Lord never set it to send us one, nor a boy neither. Seems like I love that little critter just like she belonged to me. When they told me they'd named her for my old woman I felt like my cup was runnin' over!"

"Did it spill onto your bib, Uncle Slim?" asked little Martha sympathetically.

Halliday smiled, and Simeon grinned broadly.

"Seems like it did, honey. It spilled all over me in a nice, warm, comfortable flood."

"Our shower bath can do, that," said Martha. She arose, and leaped lovingly against Halliday's knee. "I wish we had a Nancy," she said quietly.

Halliday stroked her hair. (To be Continued.)

A Clever Engineer

Long List Of Achievements Credited To Sir Alexander Gibb

Sir Alexander Gibb, who has come to Canada to prepare a report on the ports and harbours, comes of an ancient Scottish family with engineering in its blood. His himself was a pupil of Brunel and Barry, and the list of his achievements and decorations fills a whole column of "Who's Who." They include such widely different undertakings as the dockyard at Bombay and the wonderful aquarium at the Zoo. During the war Sir Alexander played a chief part in developing the Channel ports for the disembarkation of the army, and he was consulting engineer for the great new naval base at Gibraltar. He is a keen student of Burns, a member of the ancient King's Bodyguard for Scotland, and belongs to no fewer than ten clubs.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Changed Its Nature

X-Ray Experiment Converts Annual Plant Into Perennial

In experiments to learn more about effects of X-rays upon evolution, an annual plant has been changed into a perennial at Cornell University, Ithaca, New York.

The plant which changed its nature at Cornell is the echinacea, the closest wild relative to corn. There are two species, Mexicana, the annual, and perennis, the perennial.

Some of the seed was exposed to X-rays for a few minutes and then germinated. The young stalk began life as an annual, but later on, while still young, it developed some of the appearance of a perennial. Minard's Liniment

"KING OF PAIN"

New Material Found

Canada May Soon Be Able To Manufacture Mineral Wool

The important discovery that certain deposits of rock in the Niagara district of Ontario are suitable for the production of rock wool, a valuable insulating, lining and covering material, features a report issued by the mines branch of the Department of Mines. The report, by M. F. Goudge, deals with the possibility of establishing an industry in Ontario and manufacturing rock wool, which is classed as one of the most effective insulating materials known. Rock wool, or mineral wool, as it is sometimes called, the report states, is not manufactured in Canada at present, as hitherto suitable raw materials were not known to exist within the Dominion. It is made from shaly limestone which possesses certain definite characteristics. Research carried on in the laboratories of the mines branch by Mr. Goudge, indicate that several deposits of impure limestones outcropping at various places between Niagara Falls and Hamilton are suitable for making rock wool.

In the process of manufacture, the natural rock is mixed with coke and charged to a small blast furnace where it is melted. The molten rock issuing in a small stream from the base of the furnace is blown into a myriad of small globules by a blast of high-pressure steam. As the molten globules hurl through the air each develops a very thin, pliable, glassy fibre behind it. This fibre is known as rock wool.

The discovery of the suitability of the Niagara district rock for the manufacture of this commodity suggests the possibility of a new and valuable product being added to the mineral production of Canada, the report states.

THE RHYMING OPTIMIST

As those far bodies move
Along immensity.

The stars are worlds, we know,
And worlds hold joy and pain,
Hold ecstasies and woe,
And purity and stain.

But of those worlds afar
We see the gleam alone;
The glory of the star
That on our paths may show.

And so in friends most dear
I see no fault, no blight,
But only joyous bloom
And splendour of light!

Should Be Congratulated

Woman In California Keeps Employees Regardless Of Age

There is a very special and particular achievement for which Mrs. Mary K. Solari deserves congratulations, entirely aside from the fact that she has just completed her twenty-fifth successful year in the restaurant business in San Francisco. That is the stand that she has taken, as a business woman and as a human being, against the theory of "aging out," which has become a lamentable practice in businesses and industries throughout the United States.

Out of eighteen employees, four have been with her more than twenty years; five, over fifteen years; four, over ten years, which, in a staff of that size, is an extremely high percentage of long service.

Business women may justly feel proud that another business woman has taken up the cudgels so vigorously against this ruthless pushing aside of the so-called middle-aged without consideration of ability or intelligence.

A Seven Months' Tow

On the longest towing voyage on record a floating dock of 17,000 tons lifting capacity is on its way from the builders in Wallend, England, to Wallingford, N.Y. The tow of 32,000 miles will last seven months. Two powerful tugs are employed and the crew is living on the dock during the voyage.

WHEN GASTRIC JUICES FAIL TO FLOW

You know how badly an engine runs when it gets clogged up. It's the same with your body when your gastric or digestive juices fail to flow. Your stomach, of course, is assimilated by your system, simply collects and stagnates inside you, producing harmful acid poisons. What you need then is a tonic—Nature's own tonic—Nature's six mineral salts. You get all these six salts in Kruschen Salts, and each one of them has an action of its own. Together, they stimulate and tune up the bodily functions from a number of different angles. The first effect of these salts is to promote the flow of the saliva, so awaken the appetite. The next action occurs in the stomach, where the digestive juices are encouraged to pour out and act upon the food. Again in the intestinal tract certain of these salts promote a further flow of these vital juices which deal with partly digested food and prepare it for absorption into the system.

So you see there is no mystery about Kruschen. It works on purely scientific and well-known principles. Prove it for yourself.

Little Helps For This Week

"Except ye become as little children, ye shall not enter into the kingdom of heaven."—Matthew xlv. 3.

Except your Father lead you, You cannot find the way. Among the snares and pitfalls, The lure that lead astray; Except you be like children, And hold the skirts of love, You'll miss the narrow pathway That leads from earth above.

Blessed are ye if ye become as a little child, for a child is the visible likeness of the Lord Himself. And there is a blessedness in perceiving this truth; the blessing is the truth itself. He who sees the essential in the child—the pure childhood—sees the essence of grace and truth; in a word, real childlikeness. —George MacDonald.

Distemper responds quickly to Douglas' Egyptian Liniment. Keep a bottle handy in the stable.

Market For Alberta Coal

Orders For 55,000 Tons Received From Winnipeg Firms

Investigation of the quality of various Alberta coals with a view to determining the fuel best suited to the requirements of the Winnipeg City Hydro-Electric is being undertaken by G. W. Oliver, fuel engineer for the City of Winnipeg. It is pointed out that Winnipeg will be in the market during the coming winter for about 40,000 tons of coal for its central heating system and the contract will be placed with various Canadian companies. Orders for 55,000 tons of Alberta coal have been placed recently by large Winnipeg concerns.

Expects Stork in July

"I Suffered such Pain"

MOTHER advised me to take the Vegetable Compound because I suffered such pain each month.

"It helped me so much that after I married I still took it. I am expecting a little one in July and I depend upon Vegetable Compound. My sister takes it too."

Mrs. Aubrey S. Smith, P. O. Box 104, North Sydney, Nova Scotia is only one of thousands of women who depend on Vegetable Compound to carry them over difficult times. Won't you try it, too?

Lucas E. Parkhouse
VEGETABLE COMPOUND

Spontaneous Combustion.

A few weeks ago The Sun printed a warning to farmers against storing uncured hay, this season, in their barns. On Aug. 25, 1931, the horse barn at the Government Demonstration Farm at Vermilion was destroyed by fire. In giving an account of the fire the Vermilion Standard adds:

"The cause of the fire is given as spontaneous combustion from timothy which was stored in the barn while damp. The former horse barn also burned some three years ago, and this one was built to replace it."

Let Him Walk.

Book Agent, to farmer—You ought to buy an encyclopaedia, now that your boy is going to school.

Farmer—Not on your life! Let him walk, the same as I did.—Free Press.

Duffield.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark,
saline, etc., as mixed in Adierika,
acts on BOTH upper and lower
bowel, removing poisons you never
thought were there and which caused
gas and other stomach trouble. Just
ONE spoonful relieves GAS, sour
stomach, sick headache and consti-
pation. Don't take medicine which
cleans only PART of bowels but let
Adierika give you a REAL cleaning
and see how good you feel! It will
surprise you! J. F. CLARKE, Drug-
gist.

The Domestic Animals Act (Municipalities).

Sale and Redemption of Im- pounded Animals (Sec. 48.)

Notice is hereby given under
section 48 of The Domestic Ani-
mals Act (Municipalities) that 1
Bay Mare, weight 1000 pounds,
about 7 years old, white face, all
white feet, and no visible brand,
was impounded in the pound
kept by Scott Bell, located on the
Northeast 3-52-3W5, on
Saturday, the 8th day of August
A.D. 1931; and that the said ani-
mal was sold on the 19th day of
August, A. D. 1931, to Mr. A.
Wagner, of Duffield; and that the
said animal may be redeemed by
the owner or his behalf within a
period of thirty days from the
publication of this notice in the
Alberta Gazette, upon payment of
all fees and costs due to the Mun-
icipality and the purchaser of said
animal.

For information apply to the
undersigned.

E. H. PIDGEON,
Sec.-Treas. of the Municipality of
Ings No. 520.
Post Office, Stony Plain.

Edmonton Beach.

Edmonton Beach Postoffice
closed on Monday last, and
mail for that P. O. will be
handled from Stony Plain.

Mr. Barrie announces that
the Wed. and Sat. dances by
Martin's orchestra will be con-
tinued until further notice.

While some of the cottag-
ers have moved back to the
City on account of the schools
opening, a number of cottag-
ers are remaining, for the
good perch fishing.

Protest Raise in Gas. Prices.

Efforts to bring a united
protest from all western provin-
ces against increase in gaso-
line prices have been institut-
ed by the Alberta Motor as-
sociation. The recent advance
of 1 1/2¢ a gallon in the gasoline
price was scored by the asso-
ciation's directors as unwar-
ranted.

The Five Cent Wheat Bonus.

The 5¢ wheat bonus will not
be payable to non-resident
owners and share owners of
farm crops, but to the tenants
and resident owners alone,
alone, says Mr. Ramsay, chief
commissioner of the Grain
Board. Rumors that share or
non resident crop owners will
be eligible to receive bonus
are thus proved to be incor-
rect; and tenants will receive
the bonus on all wheat, irre-
spective of lease obligations.

Coffee and Sinkers on Route

A campaign designed to
break down what might be
termed the "dining car resis-
tance" of train travelers of
moderate means has just been
launched by Canadian National
Ry. Printed sample menus
for the day are now being dis-
tributed thru day coaches and
sleepers, so travelers may see
for themselves that they need
neither be merchant princes
nor even Eastern potentates to
enjoy the delights of a train
meal.

The W. I.'s Next Meeting.

Stony Plain Women's In-
stitute members will re-as-
semble after the summer holi-
days on Wednesday next,
Sept. 9th. The meeting will
be held at the home of Mrs.
A. E. Michael; with the host-
esses being, Mesdames A. E.
Michael and L. Kowensky.
The feature of the meeting
will be two minute speeches
by all members present.

Pool Members' Duty.

Grain growers of Alberta should
know by this time that the Pool
Elevator system is their safest
standby.

The destructive gossip of op-
ponents of co-operative marketing
and of prejudiced persons should
be permitted to fall on deaf ears.

Answer the campaign of misrep-
resentation by delivering all your
grain to Pool elevators.

You may Pool your wheat or
sell for cash at your option.

Regina Grain Fair, 1932.

Mr. F. Peterson of Irma, of-
ficial collector of grain and
grass samples for exhibition
purposes for Alberta Gov't, is
touring the province collecting
samples to be used in Alber-
ta's exhibit at the World's
Grain Exhibition & Confer-
ence, Regina, next year. Al-
berta reserved a space of 160
ft. frontage at the exhibition
for its display.

Open Seasons for Game.

Ducks and Geese—Sept 15 to Nov.

14th.

Hungarian Partridge—Oct. 1 to

Nov. 15

Sharp-tailed Grouse—Oct. 1-15.

Pheasant—No open season

Deer—Nov. 1 to Dec. 14

Otter, Nov. 1 to May 1.

Beaver, No Open Season.

Muskrat—Between North Sask.

River and Tp. 91, Feb. 15

to April 15

Office, where copies of the

Game Act can be seen.

Church Services.

German Lutheran services will
be held in Stony Plain next Sun-
day at 2:30 p.m.

United Church service every
Sunday Eyr. at 7:30.

There will be Gospel services
every Sunday at 7:30 p.m. at Muir
Lake Community Hall.

On Sunday, Sept. 20, English
Lutheran services at St. Matthew
Schoolhouse at 7:30 p.m., by Rev.
H. Kuring.

A Strength Giver.

A patent medicine firm recently
asked a lady for a testimonial,
and this is what she sent: "Gen-
tleman, before taking your medi-
cine I was too weak to spank the
baby, but now I can lick my hus-
band. Heaven bless you."—Van-
coover Sun.

Not the Boy's Fault.

"You are late every morning,"
said the teacher.
"Well," the boy replied, "you
can't blame me if they did not
build the schoolhouse nearer my
home.—Brookdale Sun.

Bloodthirsty 'Skitoes.

Not only in the evening but all
day long do the bloodthirsty fe-
males of the mosquito tribe hunt
for victims, and many are the
ways taken to foil them.—Vermi-
lion Standard.

Tough Luck!

Talk about tough luck! A cer-
tain man got a check for \$10 the
other day, and the only man who
could identify him at the bank
was a chap to whom he owed \$8.
—Lindsay Post.

TWENTY-FIVE YEARS.

The successful experience of this Farmer-
owned Company in handling grain for farm-
ers now covers a quarter of a century.

You are sure of GOOD SERVICE and ABSO-
LUTE SECURITY when you deliver your
grain to

ACROSS the Dominion sweeps a wave of national
enthusiasm. Canadians are striving forward on
the rising tide of a fresh prosperity. General Motors
of Canada, Limited, pays tribute to the "Forward
Canada" Movement with "Canada on Parade", a radio
hour every Friday evening, typifying the spirit of
Canada's progress.

Listen for "Canada on Parade", the catchy signature
song of the series. Buy the sheet music at your music
store, or write to your favorite radio station for an
introductory free copy.
